

Offshore Pipelines

Exclusion areas around the offshore pipelines and platforms restrict access, anchoring and fishing.

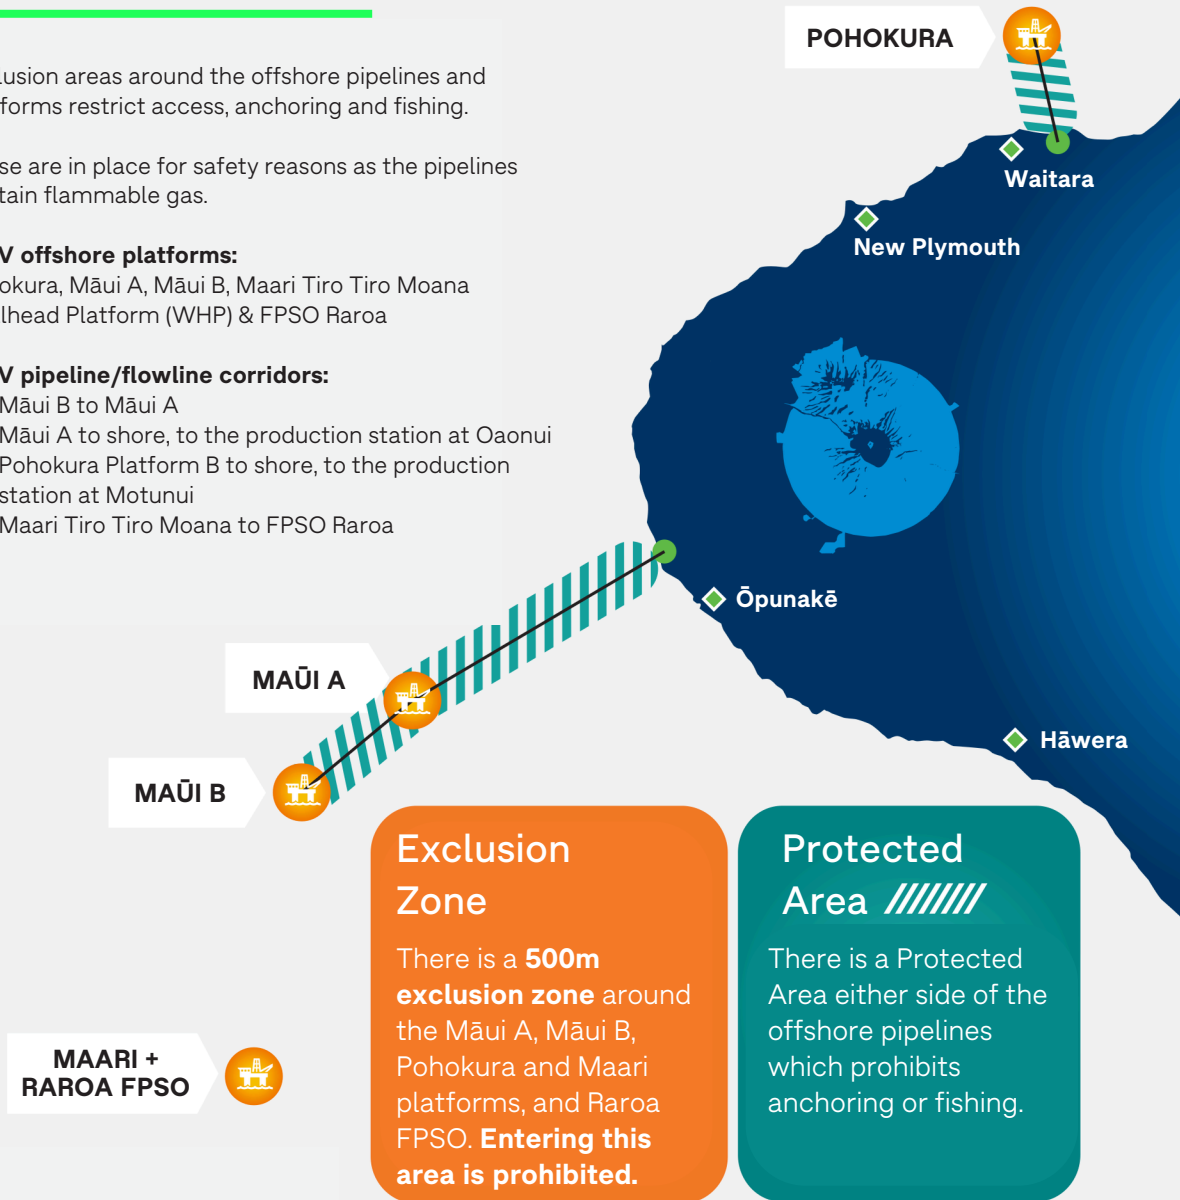

These are in place for safety reasons as the pipelines contain flammable gas.

OMV offshore platforms:

Pohokura, Māui A, Māui B, Maari Tiro Tiro Moana Wellhead Platform (WHP) & FPSO Raroa

OMV pipeline/flowline corridors:

- Māui B to Māui A
- Māui A to shore, to the production station at Oaonui
- Pohokura Platform B to shore, to the production station at Motunui
- Maari Tiro Tiro Moana to FPSO Raroa

The exclusion areas are detailed on fishing charts NZ443 and NZ45 (Land Information NZ).

OMV is one of

largest gas suppliers

If you have any questions, please contact OMV on **0800 456 800**.
