- **The following chart is to be completed and signed by the PICOL and crane driver for each lift when multiple lifts are carried out on the one permit.** ☐

	Value		PICOL	Driver
Lifting Radius (maximum)				
Boom Length				
Load Chart Using				
Crane Capacity (at maximum radius & boom length)				
Load Weight				
Estimated weight if actual weight not known				
Ground conditions checked and are suitable				
Load is not more than 90% of crane capacity (at working radius)	**Yes**	**No**		

	Value		PICOL	Driver
Lifting Radius (maximum)				
Boom Length				
Load Chart Using				
Crane Capacity (at maximum radius & boom length)				
Load Weight				
Estimated weight if actual weight not known				
Ground conditions checked and are suitable				
Load is not more than 90% of crane capacity (at working radius)	**Yes**	**No**		

	Value		PICOL	Driver
Lifting Radius (maximum)				
Boom Length				
Load Chart Using				
Crane Capacity (at maximum radius & boom length)				
Load Weight				
Estimated weight if actual weight not known				
Ground conditions checked and are suitable				
Load is not more than 90% of crane capacity (at working radius)	**Yes**	**No**		

	Value		PICOL	Driver
Lifting Radius (maximum)				
Boom Length				
Load Chart Using				
Crane Capacity (at maximum radius & boom length)				
Load Weight				
Estimated weight if actual weight not known				
Ground conditions checked and are suitable				
Load is not more than 90% of crane capacity (at working radius)	**Yes**	**No**		

	Value		PICOL	Driver
Lifting Radius (maximum)				
Boom Length				
Load Chart Using				
Crane Capacity (at maximum radius & boom length)				
Load Weight				
Estimated weight if actual weight not known				
Ground conditions checked and are suitable				
Load is not more than 90% of crane capacity (at working radius)	**Yes**	**No**		

	Value		PICOL	Driver
Lifting Radius (maximum)				
Boom Length				
Load Chart Using				
Crane Capacity (at maximum radius & boom length)				
Load Weight				
Estimated weight if actual weight not known				
Ground conditions checked and are suitable				
Load is not more than 90% of crane capacity (at working radius)	**Yes**	**No**
