Call to Tender

Third Party Inspection (TPI) Services for Drilling & Completion Activities in Austria

Description of scope of work:

OMV Austria Exploration & Production GmbH, including its affiliates, hereinafter referred to as "OMV", requires independent inspection and quality assurance/quality control (QA/QC) services to ensure all equipment and tools mobilized to field locations are fit for purpose, fully functional, compliant with specifications, and fully integrated with the drilling unit and the other equipment at site. The objective is to reduce the impact of tool failures, avoid lost time due to verifications/adjustments conducted on critical path and to eliminate any occurrence of poor integration of tools and/or systems with other equipment at site. The ultimate objective is to increase first-time-right performance of wellsite operations. The services shall cover both in-country (Austria) and out of country support for manufacturing, inspection, testing, assembly witness and other surveillance activities at OMV Suppliers' premises and/or at Company's worksites in Austria.

Procurement process:

In line with applicable procurement regulations, OMV shall organize a tender process for selection of maximum 2 suppliers for conclusion of frame contracts with a duration of 5 years, available for call-off of services depending on OMV's operational needs.

Expression of Interest:

Interested companies are invited to submit their Expression of Interest per email, at mihaela.ganea@omv.com, not later than **22nd of May 2026, 16.00 CEST**. The response shall include, as a minimum, the following information:

- Full legal name, address of the official seat, proof documentation regarding supplier's commercial and fiscal registration in the country of residence;
- Information regarding relevant qualifications and experience in the last 3 years (up to current date);
- Any other information deemed relevant.

OMV reserves the right to request any additional information deemed necessary for assessing supplier's qualifications and capability for provision of the required services as described above.

OMV intends to select maximum 7 suppliers to invite to tender.

Best regards,
