

Water Ambition Statement

- We respect water as a precious limited resource and focus on its sustainable use.
- We are committed to meeting all applicable legislative requirements or our OMV regulations - whichever is more stringent.
- Water management is a key component of our Social License to Operate. We cooperate with local communities and prove to be responsible partners.
- We are committed to transparency when it comes to our impact on water resources.
- Every OMV employee is responsible for minimizing the impact of our activities on water resources.
