CALL TO TENDER

Frame Contract for Coiled Tubing and Well Testing services

Description

OMV is planning to establish a frame contract for three plus two years optional (3 +2) for the provision of Coiled Tubing and Surface Well Testing services in Austria. This includes all jobs from OMV Austria and various OMV JVs in the Geothermal area (deelep Tiefengeothermie GmbH, OMV GeoTherm Graz, etc.).

The tender includes two major lots. The first comprises the provision of Coiled Tubing equipment and services, including Coil Tubing unit, Nitrogen unit, HP pumping units, and all auxiliary equipment like fluid tanks and mixing/transfer pumps. The second comprises Surface Well Testing equipment including storage tanks. The bids must also include all consumable items and provision of qualified personnel.

Evaluation: OMV will evaluate both technical and commercial aspects, with a stronger focus being on the commercial part.

The deadline for application is Friday, the 19th of June 2026.

In case you wish to participate in the tendering process, kindly send your written application to alexander.zotter@omv.com stating our internal ref. no. ZO59.
