Request for Expression of Interest

AT – 3D Weinviertel - Seismic Survey in the Vienna Basin – Seismic Acquisition Services

OMV Austria Exploration & Production GmbH ("OMV") is interested in concluding a contract for "AT – 3D Weinviertel - Seismic Survey in the Vienna Basin – Seismic Acquisition Services"

Description of the services required:

OMV is planning to acquire a new 3D seismic survey in the Vienna Basin in Austria, between Stockerau and Laa an der Thaya. The primary aim of this survey is to cover a gap between existing 3D datasets. The secondary objective is to replace old data from the 70s and 80s with a modern version of better quality. Geological targets are varied from very shallow to deep prospects not well imaged on existing data. So, this new survey will adapt on the surface to the different goals in depth.

The proposed project is to start in October 2027. Permitting is anticipated to start in the first quarter of 2027 to deliver all necessary permits by the time seismic field operations start.

The survey is to be acquired during winter months only (October to March), to minimize disruption to agricultural activities in the region. Restrictions to use vibrators from the 1st of March may apply due to protected wildlife. OMV hopes to get clearance to operate in March, but such clearance may take some time to obtain, if at all.

The 3D seismic survey is of the order of 1,000 km2.

OMV now invites eligible companies to indicate their interest in providing the above-mentioned services. Interested companies should provide information demonstrating that they have the required qualifications and relevant experience to perform the contract (brochures, description of similar assignments, experience in similar conditions, availability of appropriate skills among staff, etc.).

Qualification requirements:

- Previous experience in 3D seismic data acquisition of similar size and complexity in Europe, preferably in the last 5 years;
- International experience (i.e. outside of supplier's country of origin), preferably in German speaking countries.

The companies that fulfill the qualification requirements will be invited to participate in the tender event organized by OMV on the SAP Ariba digital platform.

Further information can be obtained at the email address: Mihaela.Ganea@omv.com.

Expressions of interest must be delivered in a written form to the address below (e-mail) by **20th of November 2026, 16.30 CEST**.

The Request for Expression of Interest shall expire after the above-mentioned date.
