This presentation contains forward looking statements. Forward looking statements may be identified by the use of terms such as “outlook”, “believe”, “expect”, “anticipate”, “intend”, “plan”, “target”, “objective”, “estimate”, “goal”, “may”, “will” and similar terms, or by their context. These forward looking statements are based on beliefs, estimates and assumptions currently held by and information currently available to OMV. By their nature, forward looking statements are subject to risks and uncertainties, both known and unknown, because they relate to events and depend on circumstances that will or may occur in the future and are outside the control of OMV. Consequently, the actual results may differ materially from those expressed or implied by the forward looking statements. Therefore, recipients of this report are cautioned not to place undue reliance on these forward looking statements. Neither OMV nor any other person assumes responsibility for the accuracy and completeness of any of the forward looking statements contained in this presentation. OMV disclaims any obligation and does not intend to update these forward looking statements to reflect actual results, revised assumptions and expectations and future developments and events. This presentation does not contain any recommendation or invitation to buy or sell securities in OMV.
OMV – STRONG ASSET BASE

**UPSTREAM**
- **4+1** core and development regions
  - CEE
  - North Sea
  - MENA
  - Russia
  - Australasia

**DOWNSTREAM OIL**
- **3 refineries** in Austria, Germany, Romania
- 36% participation in **Borealis**
- ~2,000 filling stations in 10 countries

**DOWNSTREAM GAS**
- **113 TWh** Natural gas sales volume, 2017
- **30 TWh** Gas storage capacity
- Positioned at the **center of Europe’s** transmission network
- Long-term reliable **partnerships** with Europe’s major suppliers

---

**Production**
- **437** kboe/d
- **1.15** bn boe

**Reserves**
- **17.8 mn t** Total refining capacity
- **2.5 mn t** Total petchem capacity

**Australasia**
WHY INVEST IN OMV

- Integrated and balanced portfolio of Upstream and Downstream ensures financial resilience
- Geographically focused and low-cost Upstream assets
- High quality assets and efficient operations in Downstream
- Strong organic free cash flow generation
- Well positioned for long-term growth in attractive regions through strong partnerships
- Progressive dividend policy: committed to delivering attractive shareholder returns
OMV’s integrated and balanced portfolio pays off – resilient cash generation

Downstream Oil – European champion

Top refiner

1st quartile European refiner ¹ and olefin producer ²

Secure sales outlets

~ 50% of refinery production sold through retail and petrochemical outlets

Strong retail brands

in core markets and in premium fuels

Integrated oil value chain

Excellent management of the integrated oil value chain

¹ According to Solomon benchmark. Fuel Net Cash Margin, Cash Opex, Maintenance, Energy intensity
² According to Solomon benchmark. Olefins Cash Opex, Maintenance, Energy intensity
Integrated portfolio
- Integrated along the value chain from well to customer

Strong European presence
- From North West to South East Europe

Europe gas hub
- Positioned at the center of Europe’s transmission network in Austria

Reliable partnerships
- OMV holds 51% stake in pipeline operator Gas Connect Austria
- Long-term reliable partnerships with Europe’s major gas suppliers

1 OMV holds 51% stake in pipeline operator Gas Connect Austria
Stringent cost discipline

Cost savings program ¹

- Substantially strengthening OMV’s reserves base
- Upside potential from satellite fields
- Plateau production to be reached early in the next decade
- Long-term plateau
- Long-term stable and substantial free cash flow
- Annual CAPEX of ~USD 150 mn in the first 5 years
- Strengthening strategic partnership with ADNOC
- Build material position in one of the world’s richest region in hydrocarbons
Acquisition in New Zealand – Major step towards building Australasia into a new core region

- Acquisition of Shell’s Upstream business in New Zealand:
  - Increased stake in Pohokura by 48% and in Maui by 83.75%
    (31 kboe/d in Jan-Feb 2018)
  - 60.98% interest in the Great South Basin exploration block
- OMV intends to assume operatorship in both joint ventures
- Purchase price USD 578 mn
- Effective date January 1, 2018
- Closing expected end 2018

Adding up to 100 mn boe of recoverable resources
Immediate production contribution at closing
Strong free cash flows
Major step towards building a new core region

1 Subject to conditions, including New Zealand Commerce Act and Overseas Investment approvals

FPSO Raroa and Ensco drilling rig, Maari field, New Zealand

Exploration: Faster and more disciplined approach

Excellent Barents Sea track record

- Increase size and quality of E&A portfolio
- Grow in OMV core and development regions
- Achieve faster monetization of discoveries
- Apply proven excellence in exploration
  - Play opening successes in Wisting, Neptun, Han Asparuh through application of OMV geological concepts – all with first well

Wisting drilling (Transocean Barents rig), Norway

1st well as new play opener ✓ Successful appraisal campaign ✓ World-record drilling ✓

E&A budget
EUR mn p.a.¹ 300

Wells
p.a. 15-20

¹ Subject to change based on overall growth
² Wisting Central II shallowest horizontal offshore well drilled from a floating drilling facility

36 | Capital Market Story, May 2018
Technology drives recovery and reduces downtime

**Highlights**
- Mean-time-between-failure of producing wells of over 1,900 days (Austria)
- Reduced number of well interventions per year from over 150,000 to below 6,000 (Romania ¹)
- Low cost drilling ² and drilling world records
- Over 80% automated wells (Austria)

**Objectives**
- Increase ultimate recovery rate by 10 percentage points in selected fields
- Apply nanotechnology for corrosion and wear prevention
- Make the most effective use of digital technologies

---

1 From 2005 to 2017, OMV closed the acquisition of a 51% stake in Petrom in December 2004
2 Top quartile cost per meter dry hole, Romania, Rushmore benchmark
Transform OMV Upstream into a top digital player

Project examples
- Drilling cockpit for real-time collaboration
- Latest 3D visualization technology for geological interpretation
- Machine learning and cloud solutions for seismic data processing

Future objectives
- Faster project evaluation for better decision making
- Worldwide digital access to knowledge, tools, people
- Accelerated innovation through idea crowdsourcing

DigitUP: Global Upstream digitalization program to improve competitive position
Focus on 4+1 regions

OMV Upstream regions

Core region – CEE

1 As per operator

Capital Market Story, May 2018
Russia – Yuzhno Russkoye and Achimov IV/V provides OMV with stable and sustainable production

- Stable production flow for a very long period of time
- Production of ~150 kboe/d will be reached in 2025
- Achimov IV/V and Yuzhno Russkoye add more than 1 bn boe to OMV’s reserves
- Cash inflow from Yuzhno Russkoye (dividends of approx. USD 200 mn p.a. mid-term) will be used to fund the capital needs of Achimov IV/V

1 OMV’s indicative view on production profiles. OMV closed the acquisition of a 24.99% share in Yuzhno Russkoye gas field. OMV signed a binding basic agreement with Gazprom for a 24.98% stake in Achimov IV/V in December 2016.
Achimov IV/V – Asset swap

OMV’s share of Achimov’s IV/V production development

- Binding basic agreement signed
  - OMV to receive a 24.98% stake in Achimov IV/V blocks, Urengoy natural gas and condensate field
  - Gazprom to receive a 38.5% participation in OMV’s wholly owned subsidiary OMV (NORGE) AS

- Investments
  - 40% of total EUR 900 mn CAPEX to be invested for 2017 and 2018 after closing
  - Leverage on already built infrastructure and pipeline system of Achimov I and II

- Take-or-pay agreement
  - Pricing structure: ~70% gas - partly sold at Russian domestic prices; remainder sold at European netback prices by the joint venture. ~30% condensate with better margins than gas
  - Will be shown in the income statement as equity-accounted investment
  - Closing expected by end of 2018
North Sea – Secure long-term sustainable contribution

Strategic direction

- **Bring Aasta Hansteen on stream**
  - First gas in Q4 2018
  - Cumulative gas production of up to 43 mn boe
  - Peak production of 18 kboe/d
  - Snefrid Nord to be developed as a tie-back

- **Mature Wisting**
  - First oil in mid 2020s
  - Total recoverable oil resources of up to 130 mn bbl
  - Latest successful appraisal well in Q3 2017

- **Expand exploration portfolio leading to discoveries**
  - 34 licenses, thereof 7 operated – 5 more licenses to come soon (May 2018), once the deals are approved by Authorities
  - Hades and Iris discoveries in the Norwegian Sea (20-115 mn recoverable boe respectively 20-130 mn recoverable boe) in April 2018

---

Presence in North Sea

- **Gullfaks** (non-operator, 19%, oil/gas)
- **Gudrun** (non-operator, 24%, oil/gas)
- **Edvard Grieg** (non-operator, 20%, oil)
- **Aasta Hansteen**
- **Wisting**
- **Norway**

Production 3m/18 Kboe/d

- 75

Main producing assets

Main exploration and development project

All figures net to OMV

1 Status as of April 27, 2018
Platform successfully anchored – Aasta Hansteen, Norwegian Sea, Norway

Aasta Hansteen field – Project Phase: Execution

- **Licensees:** Statoil (Operator, 51%), Wintershall (24%), OMV (15%), ConocoPhillips (10%)
- **Cumulative production of dry gas (from three discoveries)**: ~43 mn boe
- **Production start:** expected in Q4 2018
- **Peak production**: ~18 kboe/d
- **Status:** Platform towed to field for installation; anchoring successfully achieved
- Snefrid Nord to be developed as a tie-back to Aasta Hansteen

Polarled Project

- 480 km offshore gas pipeline from Nyhamna to Aasta Hansteen installed
- Expansion of Nyhamna gas plant finalized, start-up in 2018
- OMV share ~9%

---

1. All figures net to OMV unless otherwise stated.
2. 160,000 barrels condensate storage capacity.
OMV’s oil discovery – Wisting, Barents Sea, Norway

Wisting, Norway – Project Phase: Appraisal

- **Licensees:** OMV (Operator, 25%), Petoro, Idemitsu (each 20%) and Statoil (35%)
- Estimated 50-125 mn bbl (net to OMV) total recoverable oil resources within PL 537; location: approx. 300 km off the north coast of Norway
- **Final investment decision (FID):** 2020/2021
- **Production start:** mid 2020s
Strategic direction

- Secure stable contribution from Libya
  - Maintain and grow production level
  - Assess Nafoora field expansion
  - Evaluate exploration potential
- Deliver Nawara gas project in Tunisia
  - First gas in 2019
  - Peak production of 10 kboe/d
- Enhance value in Kurdistan Region of Iraq
  - Further develop Khor Mor field and realize upside
- Develop UAE position
- Pursue growth options in the region (e.g. Iran, Iraq)

Current developments/highlights

- **UAE:** signed concession agreement with ADNOC for acquisition of 20% interest in Umm Lulu and SARB offshore fields
- **Pakistan:** divestment of Upstream business signed; closing expected 2018
Abu Dhabi – High-quality assets with substantial cash generation

OMV signed a concession agreement for the acquisition of a 20% stake in two offshore oil fields from ADNOC:

- **Satah Al Razboot (SARB)** including the satellite fields Bin Nasher and Al Bateel
- **Umm Lulu**

Commencement of concession on March 9, 2018

- Concession valid until March 8, 2058
- Participation fee of USD 1.5 bn

≥40 kbbl/d long-term plateau production (net to OMV)

- Adding 450 mn bbl to OMV’s reserve base
- Long-term stable and substantial free cash flow
- Annual CAPEX of ~USD 150 mn in the first 5 years
OMV’s growth project in Tunisia – Nawara, Tunisia

Nawara field – Project Phase: Execution

- **Licensees:** OMV (Operator, 50%), ETAP (50%)
- **Cumulative production**¹: 40-50 mn boe of gas
- **Production start:** expected in 2019
- **Peak production**¹: ~10 kboe/d
- **Short description:** development of Nawara onshore gas concession to provide for commercial gas sales of 2.4 mn Sm3/d. In addition, condensate (6.5 mn bbl) and LPG (8.5 mn bbl extracted at the GTP) will be produced and sold.
- **Status:** Project progress (~89% complete): impacted by social and political unrest in Tataouine; working on solutions to minimize impact on delivery of first gas, evaluation ongoing
  - Gas Treatment Plant: 96%
  - Central Processing Facility: 86%
  - Pipeline: 94%
  Gas and LPG sales agreement signed; CPF Condensate Transportation Agreement also signed

¹ All figures net to OMV Project progress status as of March 31, 2018
**Australasia – Expand footprint**

**Strategic direction**
- Realize upside of current position in New Zealand
  - Strong and stable cash generator
  - Highly profitable production
- Exploit promising exploration potential (approx. 35,000 km²)
- Develop Australasia into a core region
  - Evaluate further opportunities in the wider area

**Current developments/highlights**
- Acquisition of Shell’s Upstream business in New Zealand
  - Main interest in producing fields: Pohokura (48%) and Maui (83.75%)
  - Exploration and development projects: Great South basin exploration block (82.93% total OMV share)
  - Acquisition likely to be completed in 2018

**Presence in Australasia**
- **Pohokura** (non-operated, 26%, gas/condensate)
- **Maui** (non-operated, 10%, gas/condensate)
- **Maari** (operated, 69%, oil)

**Production 3m/18 Kboe/d**
- New Zealand: 15

All figures net to OMV
Acquisition in New Zealand – Major step towards building Australasia into a new core region

- Adding up to 100 mn boe of recoverable resources
- Immediate production contribution at closing
- Strong free cash flows
- Major step towards building a new core region

- Increased stake in Pohokura by 48% and in Maui by 83.75% (31 kboe/d in Jan-Feb 2018)
- 60.98% interest in the Great South Basin exploration block
- OMV intends to assume operatorship in both joint ventures
- Purchase price USD 578 mn
- Effective date January 1, 2018
- Closing expected end 2018

FPSO Raroa and Ensco drilling rig, Maari field, New Zealand

Subject to conditions, including New Zealand Commerce Act and Overseas Investment approvals
Upstream pipeline

Strategic partnerships enable access to competitive upstream positions

**Long-term cooperation along the entire integrated value chain**
- Decade-long cooperation in the Downstream Gas business
- Access competitive upstream assets (24.98% share in Achimov IV/V) in return for a 38.5% share in OMV (NORGE) AS

**Strengthen relationship in combination with newly acquired upstream position**
- Technical Evaluation Agreement for North West Offshore Abu Dhabi
- MoU for Downstream cooperation

**Intensifying partnership with the National Oil Corporation of Libya**
- Excellent OMV position in Libya (“NOC partner of choice”) with continuous engagement since 1975
- Recent expansion in the Sirte Basin
Downstream
Downstream Oil in a nutshell

Competitive advantages

- #1st quartile European refiner\(^1\) and olefin producer \(^2\)
- High share of secure product outlets
- Best in class refinery utilization rate (>90%)
- Strong retail brands in core markets and premium fuels
- Excellent management of integrated oil value chain

2017 position

- 17.8 mn t (325 kboe/d) annual refining capacity in Austria, Germany and Romania
- 2.5 mn t petrochemical production capacity
- 36% share in Borealis - leading polyolefin producer globally
- ~2,000 retail sites in 10 countries
Downstream Oil Value Chain

2017 figures

- Crude supply
  - Equity crude production: 4.3 mn t
  - Crude from third parties: 11.7 mn t

- Refinery production
  - Crude oil refining: 16 mn t \(^1\) \(^2\)
    - (90% utilization rate of 17.8 mt refining capacity \(^2\)"

- Product supply and logistics
  - Purchase of products: 3.5 mn t
  - Storage
  - Rail/truck/ship

- Petrochemical/ commercial/ retail sales
  - Retail: 6.2 mn t
  - Business-to-business: 9.5 mn t
  - Aviation: 1.9 mn t
  - Petrochemicals: 2.2 mn t
  - OMV Petrol Ofisi: 4 mn t

Customer allocation in %
- Captive market: 47%
- Wholesale: 53%

\(^1\) Semi-finished products are not considered. 10% internal consumption not included.
\(^2\) Impacted by turnaround in Schwechat.
\(^3\) OMV Petrol Ofisi divested in June 2017.
\(^4\) Retail and petrochemical sales.
Downstream Gas in a nutshell

2017 position

- ~11 bcm natural gas sales, out of which ~70% equity supplied
- 51% share in Gas Connect Austria, the Austrian pipeline operator
- >3 bcm gas storage capacities in Austria and Germany
- 1 LNG terminal in Rotterdam
- 2 gas-fired power plants in Romania and Turkey

Competitive advantages

- Integrated gas value chain from well to customer
- Positioned at the center of Europe’s transmission network in Baumgarten (Austria)
- Long-term reliable partnerships with Europe’s major gas suppliers
2017 figures

**Gas supply**
- Equity production in Romania: 49 TWh
- Equity production in Norway: 19 TWh
- Equity production in Austria: 9 TWh
- Purchase from Russia: 72 TWh
- Purchase from Norway: 8 TWh

**Gas logistics**
- Gas supply portfolio: 157 TWh
- Gas pipeline transportation (Gas Connect Austria): 1,499 TWh
- Gas storage volume sold: 16 TWh

**Gas marketing sales**
- Gas sales to third parties: 113 TWh
- Sales in Europe: 57 TWh
- Sales in Romania: 45 TWh
- Sales in Turkey: 11 TWh

Downstream strategy 2025

Europe

- **Downstream Oil:** Further strengthen competitive position
- **Downstream Gas:** Become the leading integrated supplier with a strong market presence from North West to South East Europe

International

- Export successful European refining and petrochemical business model to international growth markets
- Increase petrochemical and refining capacity
Europe – further grow competitive position

Cash generator

- Operational excellence
- Shift to higher value products
- Further increase captive sales channels
- Double gas sales volumes
- Stringent cost management
OMV will upgrade its European refining assets to market changes

- **Up to EUR ~ 1 bn** planned investments for upgrades in 2018 - 2025
- Increase production of **petrochemicals**
- Maximize **jet fuel production** and leverage the direct pipeline connection to Vienna and Munich airports
- Become **heavy fuel oil free** in Western refineries
- Upgrade to higher value products in **Petrobrazi refinery**
- **Stable total refining** capacity of 17.8 mn t
Continuous efforts on operational excellence

- Optimize asset utilization through intermediate product exchanges
- Increase the share of higher value products with minimum investments
- Identify and maximize high margin feedstock
- EUR ~ 50 mn benefits yearly

3 refining sites = 1 integrated refinery concept

SCHWECHAT

PETROBRAZI

BURGHAUSEN
OMV Retail – strong brands driving value growth

OMV

- ~65% of network
- Premium fuels; share in sales doubled since 2012
- Leading shop and gastronomy concept in CEE
- Non-oil business is one third contributor to retail margin

Petrom

- ~25% of network
- Most trusted retail brand in Romania
- Pilot cooperation with hypermarket Auchan

Avanti and Diskont

- ~10% of network
- Perceived as most competitive in pricing
Retail ambitions for the future

Profitability turnaround in last 6 years
Operating Result per filling station, EUR 1,000

- Maintain retail profitability in a declining market
- Grow non-oil business as key differentiator to attract customers
- Further optimize cost efficiencies

Highly efficient retail stations
Average throughput per station, mn liters

- Increase sales volumes
  - Average throughput per station above country market averages
  - Increase market share in Austria and expand to South German, Hungarian and Slovenian discount retail market

OMV in 2017 excluding OMV Petrol Ofisi
Europe needs more natural gas

Increasing European gas demand supported by the switch from coal to gas

Declining European indigenous production requires further gas import volumes

Source: IEA 2017, OMV analysis
OMV aims to double the natural gas sales and build a strong market presence in Europe

- Increase equity gas volumes in Norway, Romania and Russia
- Leverage Nord Stream 2 to support Baumgarten hub
- Secure utilization of LNG terminal in Rotterdam
- Increase sales volumes to >20 bcm by 2025
- Reach 10% market share in Germany
- Evaluate inorganic growth options in commercially attractive business segments
Nord Stream 2: Improvement of energy security in Europe

Nord Stream 2 pipeline project
- Natural gas pipeline from Russia to Europe across the Baltic Sea
- 55 bcm per year capacity
- Development starts in 2018 and is planned to finish by 2019
- Total project costs of EUR 9.5 bn
- Pipeline built by Nord Stream 2 AG, 100% owned by Gazprom
- In May 2017 Engie, OMV, Shell, Uniper and Wintershall signed financing agreements with Nord Stream 2 AG to provide long-term financing for up to 50% of the total cost of the project.

OMV agreement
- OMV agreed to provide long term financing for up to 10% (EUR 950 mn) of the total cost of the project; financed so far approx. EUR 405 mn
- Financing of 70% of project costs aimed to be raised from the capital market by Nord Stream 2 AG
Develop international Downstream Oil position

Export successful European model to growing markets

- Establish 1-2 core regions outside Europe; MoU with ADNOC
- Expand petrochemical position
- Grow refining capacity

Long term
Nearly double refining capacity
Acquisition budget until 2025, EUR bn ~5
The majority of demand growth driven by Asia

Clean CCS net income/NOPAT

Principles

- Operational efficiency
- Capital efficiency
- Financing / cash efficiency
- Future oriented accretive portfolio management
- Comprehensive financial risk and compliance management
Cost discipline remains an imperative

OMV's cost discipline culture

- **Operational efficiency** in both Upstream and Downstream
- Capture **economies of scale** and strict management of **overhead costs**
- **Process optimization** and harmonization
- **Procurement** savings and contractor renegotiations
- Leverage **digitalization** and optimize IT processes

New efficiency target 1

**2018 - 2020**

¹ Excluding at-equity accounted investments
² CEGH/NCG sensitivity derived from sales in Austria, Norway and Russia (to the extent that sales prices are not linked to domestic Russian gas price)

Materially different Brent and FX levels (vs. current levels) would lead to different sensitivity results.

ESG ¹ performance

- OMV has in 2017 again achieved a score A- (leadership) for both CDP’s Climate Change and Water. This result places OMV among the top 13 companies in the global energy sector in CDP Climate Change.

- OMV was reconfirmed as a member of the FTSE4Good Index Series, which are used by a wide variety of market participants to create and assess responsible investment funds.

- OMV maintained its inclusion in the STOXX® Global ESG Leaders.

- OMV received the highest “AAA” score from MSCI Global Sustainability Index for the fifth time in a row of ESG performance. OMV was reconfirmed in the MSCI ACWI ESG Leaders index and included for the first time in the MSCI ACWI SRI Index.

- OMV remains a constituent of the Euronext Vigeo - Eurozone 120 index, being among 120 companies that are most advanced in sustainability.

- OMV remains a constituent of the Ethibel Sustainability Index (ESI) Excellence Europe.

- OMV has been listed in the "United Nations Global Compact 100" since 2013.

- OMV was rated C+ by oekom based on the 2017 analysis, positioning the company among top 4 out of 148 companies in the energy sector.

- OMV is a constituent of ECPI index and scored EE-, stating as showing “a clear long-term strategic attitude, sound operational management practices and positive actions to tackle social and environmental needs”.

¹ Environment, Social and Governance.
