

Sustainability of OMV's 2009 AGM

- OMV's Annual General Meeting 2009 again a **carbon neutral event**:
The calculated 65 t of greenhouse gas emissions will be offset through the "Sebenoba-Karakurt Wind Power Project" in Turkey. (The Annual General Meeting 2009 received the "carbon neutral status" by the CarbonNeutral[®]company.)
- The documents for this year's Annual General Meeting were printed on **FSC paper** and produced in an environmentally friendly process, the production was also carbon neutral.
- Information on **OMV Future Energy Fund**
- Information on **OMV's "Move & Help" programme**
- Shareholders will be offered **fair trade meals** and drinks and **organic food** from local producers at this year's buffet.
