OMV at a glance

OMV produces and markets oil and gas, innovative energy and high-end petrochemical solutions – in a responsible way. With Group sales of EUR 23 bn and a workforce of more than 20,000 employees in 2018, OMV Aktiengesellschaft is one of Austria’s largest listed industrial companies. In Upstream, OMV has a strong base in Romania and Austria as part of the Central and Eastern Europe core region as well as a balanced international portfolio, with Russia, North Sea, Middle East and Africa as well as Asia-Pacific as further core regions. 2018 daily production stood at approximately 427,000 boe/d. In Downstream, OMV operates three refineries with a total annual processing capacity of 17.8 mn tons and more than 2,000 filling stations in ten countries. OMV runs gas storage facilities in Austria and Germany; its subsidiary Gas Connect Austria GmbH operates a gas pipeline network in Austria. In 2018, gas sales volumes amounted to around 114 TWh. Sustainability is an integral part of the corporate strategy. OMV is set to invest EUR 500 mn in innovative energy solutions by 2025.

Company history

1956: Founding of Österreichische Mineralöolverwaltung AG (ÖMV)
1968: First natural gas supply contract with the USSR
1971: First economic international Upstream project in Tunisia
1983: Drilling of deepest well in Austria (Zistersdorf Übertief 2a) at 8,553 m
1985: First international Upstream operations in Libya
1987: Acquisition of the Burghausen refinery in Germany and first step towards privatization
1989: Second privatization step
1990: Acquisition of CHEMIE LINZ Group; the first ÖMV filling station opens

2019: OMV signs agreement for the acquisition of a 15% stake in ADNOC Refining (Abu Dhabi). Acquisition of a 50% stake in SapuraOMV Upstream in Malaysia
OMV Business Segments

OMV Upstream
OMV Upstream explores and produces oil and gas in its five core regions Central and Eastern Europe, Russia, the North Sea, Middle East and Africa, and Asia-Pacific. Daily production in 2018 was 427 kboe/d (equal to 156 mn boe). While gas production accounted for 57% of production, oil amounted to 43%. At year-end, proven reserves amounted to 1.27 bn boe.

OMV Downstream
Downstream Oil (incl. Petrochemicals) operates three refineries in Austria, Germany and Romania, an international multiprand filling station retail network, and a high-quality commercial business. In 2018, the OMV processing capacity was 17.8 mn t. Downstream Gas operates across the gas value chain from the wellhead to the burner tip of the end customer with a fully integrated gas business. It includes the Group’s power business activities, with one gas-fired power plant in Romania.
