This presentation contains forward looking statements. Forward looking statements may be identified by the use of terms such as “outlook”, “believe”, “expect”, “anticipate”, “intend”, “plan”, “target”, “objective”, “estimate”, “goal”, “may”, “will” and similar terms, or by their context. These forward looking statements are based on beliefs, estimates and assumptions currently held by and information currently available to OMV. By their nature, forward looking statements are subject to risks and uncertainties, both known and unknown, because they relate to events and depend on circumstances that will or may occur in the future and are outside the control of OMV. Consequently, the actual results may differ materially from those expressed or implied by the forward looking statements.

Therefore, recipients of this report are cautioned not to place undue reliance on these forward looking statements. Neither OMV nor any other person assumes responsibility for the accuracy and completeness of any of the forward looking statements contained in this presentation. OMV disclaims any obligation and does not intend to update these forward looking statements to reflect actual results, revised assumptions and expectations and future developments and events. This presentation does not contain any recommendation or invitation to buy or sell securities in OMV.
OMV – The energy for a better life

Safety first
- HSSE – Top priority
- Aim for ZERO harm – NO losses

Financial stability
- Integrated portfolio across the value chain
- Balanced regional footprint

Innovation & Technology
- Become a digital leader
- Provide solutions for future mobility
- Innovate towards circular economy

Carbon efficiency
- Targets to reduce carbon footprint
- Increase share of natural gas in portfolio
- Shift to petrochemicals

Employer of choice
- Attract top talents
- Promote diversity
One company – Two strong pillars

UPSTREAM

Balanced core regions
- Central Eastern Europe
- Middle East and Africa
- North Sea
- Russia
- Asia-Pacific

Attractive project pipeline
- 500 kboe/d by 2019
- 600 kboe/d by 2025

Strategic partnerships

2018 data

Production 427 kboe/d
Proven reserves 1.27 bn boe
Three years RRR 160%
Production costs USD 7.0/boe

DOWNSTREAM OIL

Top European refiner
3 refineries with refining capacity of 17.8 mn t
Pcthem capacity 2.5 mn t
~2,100 filling stations in 10 countries
36% share in Borealis

Well positioned for IMO 2020

Strong retail brands and high share of secure product outlets

DOWNSTREAM GAS

Integrated gas value chain from well to customer

Natural gas sales volumes 114 TWh
OMV’s value proposition – Well positioned for rewarding shareholders

Integrated and balanced
Integrated and balanced portfolio of Upstream and Downstream assets provide resilient cash generation

Upgraded portfolio
Portfolio restructured, costs down, earnings and cash generation up

Growth ahead
Focus on executing attractive project pipeline coming with growing cash flows

Progressive dividend policy
Increase the dividend every year or at least maintain it at the respective previous year’s level

OMV Strategy 2025 – In a nutshell

**Profitable growth**

► Clean CCS Operating Result
  ► ≥ EUR 4 bn in 2020 and
  ► ≥ EUR 5 bn in 2025
► ROACE target ≥ 12% mid- and long-term
► Positive free cash flow after dividends
► Long term gearing ratio target of ≤ 30%
► Progressive dividend policy

**Expand integrated portfolio**

► Leverage on proven concept of integration
► Significantly internationalize Upstream and Downstream
► Build strong gas market presence in Europe

**Operational excellence**

► Extend record of operational excellence
► Cost discipline
Delivering on targets – Record clean CCS Operating Result in 2018

Target ≥ 12%
2018 – A year of strong strategy execution

- **Operational excellence**
  - Record production of 427 kboe/d (+23%) with cost of USD 7/boe (-20%)
  - World-class refinery utilization at 92% despite turnaround
  - Cost savings of > EUR 100 mn (vs. 2017)

- **Grew and strengthened portfolio**
  - Significantly internationalized Upstream and Downstream
    - Established **integrated position** in Abu Dhabi\(^1\)
    - Established Asia-Pacific as a new Upstream core region
  - Ongoing portfolio optimization

- **Increased profitability and returns**
  - **Record** Clean CCS Operating **Result** of EUR 3.6 bn
  - Dividend Per Share increased to EUR 1.75 (+17%) \(^2\)
  - Clean CCS ROACE of 13%

- **Cash flow**
  - **Record** operating cash flow of EUR 4.4 bn (+ EUR 1 bn)
  - Organic free cash flow before dividends of EUR 2.5 bn (+ EUR 0.6 bn)
  - **Substantial free cash flow after dividends** for the third consecutive year

- **Maintained strong balance sheet**
  - Strong investment grade rating (Moody’s A3 and Fitch A-)
  - **EUR 4.0 bn cash position** end of 2018
  - Gearing ratio of 13%
Q1/19 – Solid performance with strong cash generation

Active portfolio management towards higher returns

**Major divestments**
- Divested high cost and capex intensive OMV UK
- Sold minority stake in regulated Gas Connect Austria
- Decreased exposure to Turkey
- Streamlined portfolio and divested non-core assets

**Major acquisitions**
- Established Russia as an Upstream core region
- Established an integrated value chain in Abu Dhabi
- Developed Asia-Pacific into an Upstream core region
- Invested in future mobility and streamlined gas sales business

Capital Market Story, May 2019
Developed Asia-Pacific into core region

- **Expanded footprint in New Zealand** by increasing stake in existing producing assets
- **Partnered with Sapura’s upstream business in Malaysia** – Platform for further regional growth, capitalizing on growing Asian markets and increasing LNG demand

Entered into attractive fields in Abu Dhabi

- **20% stake in two producing oil fields** Umm Lulu and SARB with reserves of 450 mn boe and long-term plateau
- **5% interest in the Ghasha concession** comprising three major gas and condensate development projects as well as other offshore oil, gas and condensate fields
Strong project pipeline for further production growth

Production growth

- **Up to ~EUR 1 bn** planned investments for upgrades in 2018 - 2025
- Increase production of **petrochemicals**
- Maximize **jet fuel production** and leverage the direct pipeline connection to Vienna and Munich airports
- Become **heavy fuel oil free** in Western refineries
- Upgrade to higher value products in **Petrobrazi refinery**
- **Stable total refining** capacity of 17.8 mn t
OMV and ADNOC form a strategic downstream partnership – Decisive step to deliver OMV Strategy 2025

► OMV acquires a 15% interest in ADNOC Refining and in a to-be-established Trading Joint Venture (ADNOC 65%, ENI 20%)

► OMV becomes a strategic partner in the 4th largest refinery in the world, integrated into petrochemicals (total capacity: 922 kbbl/d)

► Trading Joint Venture follows same successfully integrated Downstream Oil business model as OMV in Europe – with access to attractive markets

► Estimated purchase price of ~USD 2.5 bn based on estimated 2018 year-end net debt; final value dependent on net debt at closing and working capital adjustments
  
  ▶ Enterprise value of ~USD 2.9 bn \(^1\) for 15%

► Closing of the transaction is expected in Q3 2019

► Transaction will be financed from cash and through long-term senior bonds; the share will be consolidated at-equity

\(^1\) subject to customary closing adjustments
Benefitting from an integrated position in Abu Dhabi

OMV’s integrated value chain in Abu Dhabi enhances profitability, increases optionality and reduces volatility

**Upstream**

- **Sarb and Umm Lulu**
  - 20.0% OMV’s share
  - 5.0% OMV’s share
  - Delivering high quality oil production growth
  - Maximizing value from substantial gas and condensate resources

- **Ghassha**

**Refining & Trading**

- **ADNOC Refining Trading JV**
  - 15.0% OMV’s share
  - Operating the fourth largest refinery in the world
  - Increase in OMV refining and petchem capacity by 40% and 10%
  - Managing an integrated margin via Trading JV

**Petrochemicals / Polymers**

- **Borouge**
  - 14.4% OMV’s share
  - Operating the largest polyolefin site in the world
  - Providing innovative, value creating plastics solutions

---

1 Entity to be established
2 OMV owns a 36% stake in Borealis, which in turn owns 40% in Borouge

Capital Market Story, May 2019
Europe needs more natural gas

**EU-28 gas supply and demand**

OMV Strategy 2025

- Increase sales volumes to >20 bcm by 2025
- Reach 10% market share in Germany
- Increase equity gas volumes
- Leverage **Nord Stream 2** to support Baumgarten hub
- Secure utilization of LNG terminal in Rotterdam

Source: IEA 2017, OMV analysis
Getting ready for a sustainable economy

2025 targets

- Reduce carbon intensity of operations by 19%
- Reduce carbon intensity of OMV’s product portfolio by 4%

2030 targets

- Zero routine flaring or venting of associated gas by 2030

EUR 500 mn for innovative energy solutions by 2025

15 Sustainability targets

Future mobility

Alternative feedstocks & circular economy

1 Compared to baseline 2010
ReOil® – Transformation of plastic waste into crude oil

Conversion of used plastics (PE, PP, PS) into synthetic crude oil, further processed in Schwechat refinery

Process is patented internationally (e.g. Europe, USA, Russia, China)

Pilot plant commissioned in Q3 2018
800 t p.a. capacity

Demonstration plant with a feedstock capacity of up to 20,000 t per year

OMV aims to develop ReOil into a profitable, industrial-scale process with a capacity of around 200,000 t per year

100 kg plastics ➡ 100 liters of crude
Focus on disciplined organic investments

Organic CAPEX
EUR bn

- Increase in 2019 organic Capex guidance reflects a strong pipeline of profitable growth projects.
- The guided level of EUR 2.0 to 2.5 bn per year until 2025 sufficient to maintain our new portfolio and finance our growth projects.
Healthy balance sheet with substantial gearing headroom

Upstream
Upstream – At a Glance

2018 position

- 427 kboe/d production (3m/19: 474 kboe/d) with an oil and gas split of 43:57;
- Production cost at USD 7.0/boe (3m/19: USD 6.8/boe)
- 1P Reserves of 1,270 mn boe
- Reserve Replacement Rate of 160% on a 3 years average

Competitive advantages

- Focused portfolio with 5 core regions
- Attractive project pipeline shifting production to at least 500 kboe/d by 2020 and 600 kboe/d by 2025
- Well positioned in attractive regions with strong partnerships with major players
- Low production cost

On January 31, 2019 OMV acquired a 50% interest in SapuraOMV Upstream Sdn. Bhd. In addition to the Malaysian footprint, SapuraOMV Upstream has exploration assets in New Zealand, Australia and Mexico.
Transformed Exploration strategy: ~60% success rate in 2018

- Active in Austria, Romania deep onshore, Black Sea, Norway and New Zealand
- Increase size and quality of E&A portfolio
- Apply proven excellence in exploration
  - Play opening successes in Wisting, Neptun, Han Asparuh through application of OMV geological concepts – all with first well
  - Success in Norwegian Hades and Iris exploration well with discovery of gas and condensate in April 2018
- Aim to achieve faster monetization of discoveries

**E&A budget**
EUR mn, 2019
350

**Wells**
p.a.
15-20

---

1 Net to OMV
Technology drives recovery and reduces downtime

- **Highlights**
  - Mean-time-between-failure of producing wells of over 1,600 days (Austria)
  - Reduced number of well interventions per year from over 150,000 to below 6,000 (Romania)
  - Low cost drilling and drilling world records
  - Over 80% automated wells (Austria)

- **Objectives**
  - Increase ultimate recovery rate by 10 percentage points in selected fields
  - Apply nanotechnology for corrosion and wear prevention
  - Make the most effective use of digital technologies

---

1. From 2005 to 2017, OMV closed the acquisition of a 51% stake in Petrom in December 2004
2. Top quartile cost per meter dry hole, Romania, Rushmore benchmark
Transform OMV Upstream into a top digital player

► Project examples
  ► Drilling cockpit for real-time collaboration
  ► Latest 3D visualization technology for geological interpretation
  ► Machine learning and cloud solutions for seismic data processing

► Future objectives
  ► Faster project evaluation for better decision making
  ► Worldwide digital access to knowledge, tools, people
  ► Accelerated innovation through idea crowdsourcing

► MoU with Schlumberger to evaluate collaboration models for digital solutions

► DigitUP: Global Upstream digitalization program to improve competitive position
Upstream strategy 2025

- Renew and improve the quality of our asset base
- Double reserves
- Extend track record of operational excellence
- Increase cash generation

- Production volume of 500 kboe/d in 2020 and 600 kboe/d in 2025
- Production cost below USD 8/boe
- 3 years RRR of >100%

Higher-quality portfolio generating more cash
Strengthened reserve base

1 Expected cumulated field life production 2 Basic Sale Agreement* signed on October 3, 2018 3 FID on Umm Lulu/SARB EPC took place in 2013, prior to OMV involvement in the concession (effective March 2018). 4 FID for Phase 1 (Gorek, Larak and Bakong fields) 5 As communicated for the Domino-1 well in February 2012 6 Via OMV Petrom 7 Appraisal still ongoing

All figures net to OMV
Focus on 5 core regions

OMV Upstream regions

- Central Eastern Europe (CEE)
- North Sea
- Middle East and Africa (MEA)
- Russia
- Asia-Pacific

Growth
Sustain value generation in Romania and Austria, realize Black Sea potential

**Strategic direction**

- **Maximize profitable recovery**
  - Infill drillings, workovers, selected field re-developments
  - Strict cost management (CAPEX, production cost)
  - Explore in Romania onshore, the Black Sea and Austria

- **Mature Neptun**
  - Resources Domino-1 discovery of up to 250 mn boe

- **Continue active portfolio management**
  - Pursue regional growth
  - Divest additional marginal fields in Romania

---

*All figures net to OMV*

1 OMV Petrom initial estimate as communicated for the Domino-1 well in February 2012
Growth project in Romania – Neptun Deep, Black Sea

Neptun Deep – Project Phase: Engineering (pre-FID)
- **Licensees:** ExxonMobil (Operator, 50%), OMV Petrom (50%)
- **Domino-1 discovery in 2012** (first offshore deep water exploration well)
- Preliminary estimate recoverable resources: 0.75-1.5 tcf (21-42 bcm; 125-250 mn boe), net to OMV Petrom
- **Joint Venture Expenditures to date (Exploration & Appraisal) over USD 1.5 bn**
- Second exploration drilling campaign successfully finalized in January 2016
  - Drilled 7 wells into different structures in the Neptun Block
  - Successful well test of Domino structure
- **Potential key contributor to OMV RRR target**

---

1 OMV Petrom initial estimation, as communicated in February 2012.
2 Gross value
3 If commercially viable
Russia – Build upon huge potential

**Strategic direction**

- **Realize organic growth potential**
  - 100 kboe/d from Yuzhno Russskoye over next years
  - Upside from Turonian reservoir – first phase of drilling successfully completed
  - Deeper layers potential being assessed

- **Continue growth path with Achimov 4A/5A**
  - Negotiations on the purchase price for the 24.98% stake expected to be finalized during summer 2019
  - First gas in 2020 \(^1\)
  - Plateau production of 80 kboe/d by 2025
  - ~70% gas - partly sold at Russian domestic prices; remainder sold at European netback prices by the joint venture. ~30% condensate with better margins than gas

- **>1 bn boe recoverable reserves**
  - Yuzhno Russskoye and Achimov to contribute to OMV’s RRR in the long run

- **Review further business opportunities**
Yuzhno Russkoye and Achimov 4A/5A provide OMV with stable and sustainable production

- Production of ~150 kboe/d will be reached by 2025
- Stable production flow for a very long period of time
- Achimov 4A/5A and Yuzhno Russkoye add more than 1 bn boe to OMV’s reserves
- Cash inflow from Yuzhno Russkoye will be used to fund the capital needs of Achimov 4A/5A

1 OMV’s indicative view on production profiles. OMV closed the acquisition of a 24.99% share in Yuzhno Russkoye gas field. OMV and Gazprom signed a “Basic Sale Agreement” regarding the potential acquisition of a 24.98% interest in Achimov 4A and 5A phase development by OMV on October 3, 2018.
North Sea region – Secure long-term sustainable contribution

Strategic direction

- **Aasta Hansteen on stream**
  - First gas on December 16, 2018
  - Cumulative gas production of up to 43 mn boe
  - Plateau production of ~20 kboe/d reached in Q1/19

- **Mature Wisting – OMV’s oil discovery**
  - Latest successful appraisal well in Q3 2017
  - Operated by OMV (25% stake)
  - FID in 2021/22
  - First oil in mid 2020s
  - Total recoverable oil resources of 440 mn bbl gross

- **Expand exploration portfolio leading to discoveries**
  - 53 licenses, thereof 14 operated
  - Hades and Iris discoveries in the Norwegian Sea
    - (20-115 mn recoverable boe respectively 20-130 mn recoverable boe) in April 2018

---

Presence in North Sea Region

- **Gullfaks** (non-operator, 19%, oil/gas)
- **Gudrun** (non-operator, 24%, oil/gas)
- **Edvard Grieg** (non-operator, 20%, oil)
- **Aasta Hansteen** (non-operator, 15%, gas)

Production 3m/2019 Kboe/d

- 88

- **Norway**

1 Status as of March, 2019

Capital Market Story, May 2019
Grow and access potential in Middle East and Africa

**Strategic direction**
- Further ramp up Umm Lulu and SARB and develop Ghasha concession in **Abu Dhabi**
- Secure stable contribution from **Libya**
- Deliver **Nawara** gas project in Tunisia
- Enhance value in **Kurdistan Region of Iraq**
- Pursue growth options in the region

**Current developments**
- **Libya**: Production ramping up in Libya after El Sharara oil field was under force majeure and complete shut-down between December 8, 2018 and March 4, 2019
- **Abu Dhabi**: Onshore pre-commissioning and commissioning works ongoing for Umm Lulu super complex modules
Abu Dhabi – High-quality assets with substantial cash generation

**Umm Lulu and SARB**
- 20% interest awarded in April 2018; concession valid until March, 2058 (ADNOC: 60%, CEPSA: 20%)
- Annual CAPEX of ~USD 150 mn in first 5 years
- Production started in Q3/2018 and reached ~25 kbbl/d by the end of 2018
- Long-term plateau production of 43 kbbl/d to be reached by 2023
- Cumulative production: approx. 450 mn bbl oil
- Long-term stable and substantial free cash flow

**Ghasha concession**
- 5% interest in the Ghasha concession awarded in December 2018 (ADNOC: 60%, ENI: 25%, Wintershall: 10%)
- Comprises three major (sour) gas and condensate greenfield development projects: Hail, Ghasha and Dalma, as well as other offshore fields
- 40-years concession agreement starting from November 2018
- FID for first fields planned for 2019; start of production around mid 2020s
- Plateau production to reach over 1.5 bn cubic feet per day (40 mn bcm/d) and 120 kboe/d of oil and high value condensate (gross values)

---

1 Net to OMV

48 | Capital Market Story, May 2019
Growth project in Tunisia – Nawara

Nawara field – Project Phase: Execution

- **Licensees:** OMV (Operator, 50%), ETAP (50%)
- **Cumulative production:** 40-50 mn boe of gas
- **Production start:** expected towards end of 2019
- **Peak production:** ~10 kboe/d
- **Short description:** development of Nawara onshore gas concession to provide for commercial gas sales of 2.4 mn Sm3/d. In addition, condensate (6.5 mn bbl) and LPG (8.5 mn bbl extracted at the GTP) will be produced and sold.
- **Status:** Project progress (~98.3% complete): impacted by social and political unrest in Tataouine; working on solutions to minimize impact on delivery of first gas
  - Gas Treatment Plant: 99%
  - Central Processing Facility: 96%
  - Pipeline: 99%

All figures net to OMV
Project progress status as of March 2019

Capital Market Story, May 2019
Asia-Pacific developed into core region

Current developments/highlights

- **Partnered with Sapura’s Upstream business in Malaysia**
  - Acquired 50% interest in Sapura’s Upstream business, an independent Malaysian oil and gas company
  - Closed on January 31, 2019
  - SapuraOMV fully consolidated in OMV’s financial statements

- **Increasing stake in producing fields in New Zealand**
  - Increased interest in producing fields: Pohokura (48%) and Maui (90%)
  - Exploration and development projects: Great South basin exploration block (82.93% total OMV share)
  - Closed on December 28, 2018

Strategic direction

- Leverage SapuraOMV’s growth prospects, capitalizing on growing Asian markets and increasing LNG demand
- Realize upside of current position in New Zealand
- Exploit promising exploration potential

All figures net to OMV

1 On January 31, 2019 OMV acquired a 50% interest in SapuraOMV Upstream Sdn. Bhd. In addition to the Malaysian footprint, SapuraOMV Upstream has exploration assets in New Zealand, Australia and Mexico.
Increased footprint in New Zealand

- Acquisition of Shell’s Upstream business in New Zealand
  - Purchase price USD 579 mn
  - Effective date January 1, 2018
  - Closed on December 28, 2018
- Increased stake in Pohokura by 48% and in Maui by 90% \(^1\)
- 60.98% interest in the Great South Basin exploration block
- OMV assumed operatorship in all three joint ventures

---

\(^1\) 83.75% share from Shell, 6.25% share from Todd Energy

FPSO Raroa and Ensco drilling rig, Maari field, New Zealand
OMV acquired 50% of Sapura’s Upstream business

- **Major independent Malaysian oil and gas company**
  - Total cumulative production estimated at around 260 mn boe \(^1\) (100%)
  - Current production at ~10 kboe/d
  - Production and development assets are located in shallow waters, offshore Malaysia

- **Strong growth prospects** from the operated gas development projects in Sarawak basin: SK408 and SK310-B14
  - Near-term production growth
  - Plateau production of ~60 kboe/d \(^1,2\) (100%)
  - Production split: ~90% gas and ~10% oil
  - Majority of gas is transported to Bintulu LNG complex, operated by Petronas; LNG exported to Asian market

---

1. Entitlement production, gross figure representing 100% of Sapura Upstream which OMV fully consolidates in its statements
2. Exploration Blocks SB332 and SB331 are not part of this transaction
**Downstream Oil in a nutshell**

**Competitive advantages**

- **#1st quartile** European refiner \(^1\) and olefin producer \(^2\)
- High share of **secure product outlets**
- Best in class refinery utilization rate (>90%)
- Strong **retail brands** in core markets and premium fuels
- Excellent management of **integrated oil value chain**

**2018 position**

- **17.8 mn t** (370 kboe/d) annual **refining capacity** in Austria, Germany and Romania
- **2.5 mn t** petrochemical production capacity
- **36%** share in Borealis - leading polyolefin producer globally
- ~**2,100 retail sites** in 10 countries

---

The share in Borealis is a core asset in OMV Downstream and a basis for further growth

Polyolefin production capacity
Mn t p.a.

Borealis

- #6 in polyolefins globally (incl. 100% of Borouge)
- #2 in polyolefins in Europe
- JV with ADNOC in Borouge, Abu Dhabi – largest polyolefin site in the world
- Growth projects in USA and UAE
- Strong contributor to OMV’s profitability (36% share in Borealis)

Borealis – OMV cooperation

- Site integration „across the fence“ in Schwechat and Burghausen
- Operational synergies
Downstream strategy 2025

Europe

► **Downstream Oil:** Further strengthen competitive position
  ▶ Operational excellence
  ▶ Shift to higher value products
  ▶ Further increase captive sales channels

► **Downstream Gas:** Strong market presence from North West to South East Europe
  ▶ Double sales volumes
  ▶ Reach 10% market share in Germany

International

► Export successful European refining and petrochemical business model to international growth markets
► Nearly double refining capacity
► Strengthen petrochemical position
► Focus on Middle East and Asia
Strong petrochemicals position in Europe and potential for future growth

Production capacity
Mn t p.a.

- Strong partnerships with long-term customers
- Projects under preparation
  - Increase production of higher value butene (high purity iso-butene) by 2020
  - Steam cracker expansion in Burghausen by 2021

Clean CCS Operating Result petrochemicals
EUR mn

- Petrochemical projects under evaluation
  - Evaluate expansion in Schwechat together with Borealis
  - Evaluate potential for Petrobrazio refinery
  - Screen market for petrochemical opportunities

1 Ethylene/propylene net margin at the level of actual 2017. Butadiene margin 2017 normalized.
OMV Retail – Strong brands driving value growth

OMV
- ~65% of network
- Premium fuels; share in sales doubled since 2012
- Leading shop and gastronomy concept in CEE
- Non-oil business is one third contributor to retail margin

Petrom
- ~25% of network
- Most trusted retail brand in Romania
- Pilot cooperation with hypermarket Auchan

Avanti and Diskont
- ~10% of network
- Perceived as most competitive in pricing
## Retail ambitions for the future

### Profitability turnaround in last 6 years

68 | Capital Market Story, May 2019
OMV and ADNOC form a strategic downstream partnership – Decisive step to deliver OMV Strategy 2025

OMV – European Champion

- **Operations Excellence**
  1st quartile European Refiner
  1st quartile Process Safety

- **Project Management Excellence**
  Voted one of two top companies globally

- **Profitable commercial integration**
  Top in managing integrated oil value chain from barrel of crude to end customer

- **Petrochemicals Integration**
  1st quartile olefins producer
  Close integration with Borealis at two sites

ADNOC Refining – Middle East Champion

- **Top performing ADNOC Refining team**

- **Start up of key assets provides room to maximize value of asset**

- **Value accretive growth projects** in pipeline

- **Potential to maximize integrated margin** from feedstock supply to product sales with expansion of crude slate and Trading JV

- **Integration opportunities**: Ruwais integrated platform with a similar set up as OMV sites

- **Attractive platform for potential chemical park**

---

1. According to Solomon benchmark
2. According to Process Safety Event Rate (PSER), European Refineries
3. Industry Consortium Benchmark (IBC) based on Independent Project Analysis (IPA Global), 750 projects, 74 companies
OMV acquires a 15% interest in ADNOC Refining and in a to-be-established Trading Joint Venture

- Refining capacity of 922 kbbl/d:
  - Ruwais Refinery East: 420 kbbl/d
  - Ruwais Refinery West: 417 kbbl/d
  - Abu Dhabi Refinery: 85 kbbl/d
  - Petrochemical production: 1.7 mn t p.a.

- Associated infrastructure:
  - Advanced logistics networks, utility assets and waste handling facilities
  - Act as enablers of the Ruwais mega-site and provide predictable income

- Step change in 2019 after restart of Residue Fluid Catalytic Cracking Unit

- 95% white products, near zero heavy fuel oil, excellently positioned for IMO 2020

1 with the Carbon Black and Delayed Coker and the Residue Fluid Catalytic Cracking Unit online
Trading Joint Venture instrumental to optimize margins along the value chain

Refinery has an excellent location to supply growth markets

► Trading JV to start operations as early as 2020
► OMV to own a 15% stake in the Trading JV
► Trading majority of export volumes of ADNOC Refining products as well as supply of non-Abu Dhabi feedstock
► Export volumes equivalent to ~70% of production (~32 mn t) in 2019
► Optimize margins along the value chain
► Major step to participate in attractive global markets (e.g. Asia-Pacific)
Fantastic platform for further profitable growth

**SELF-FUNDED GROWTH**

**Operational excellence**
- Maximize throughput and optimize existing operations
- Further increase profitability by utilizing waste heat energy

**Increase feedstock flexibility**
- Significantly expand crude slate, allowing for processing of heavier, more sour crude
- Capture value differentials

Final Investment Decision taken

**Integrate in petchem value chain**
- Upgrade naphtha streams:
  - Paraxylene (1.5 mn t p.a.)
  - Benzene (0.2 mn t p.a.)
  - Gasoline (4 mn t p.a.)

**Profitable long-term growth pipeline**
- Detailed feasibility studies for future projects ongoing (eg. new refinery)
- Focus on profitable downstream growth and integration
- Potential further integration into chemicals

---

ADNOC Refining gross CAPEX ¹ planned: USD ~1.9 bn p.a. in current 5 year business plan

---

¹ OMV to consolidate ADNOC Refining at-equity, ADNOC Refining CAPEX will not be reported in OMV’s CAPEX

---

72 | Capital Market Story, May 2019
Nord Stream 2: Improvement of energy security in Europe

Nord Stream 2 pipeline project
- Natural gas pipeline from Russia to Europe across the Baltic Sea
- 55 bcm per year capacity
- Development started in 2018 and is planned to finish by 2019
- Total project costs of EUR 9.5 bn
- Pipeline built by Nord Stream 2 AG, 100% owned by Gazprom
- In May 2017 Engie, OMV, Shell, Uniper and Wintershall signed financing agreements with Nord Stream 2 AG to provide long-term financing for up to 50% of the total cost of the project.

OMV agreement
- OMV agreed to provide long term financing for up to 10% (EUR 950 mn) of the total cost of the project; financed so far approx. EUR 644 mn (as of Q1/19)
- Financing of 70% of project costs aimed to be raised from the capital market by Nord Stream 2 AG
Financials
**Financial steering framework**

**Focus**
- Strength of balance sheet and steady value enhancement
- Growth in profitability and adequate liquidity

**KPIs**
- ROACE/EVA
- Gearing
- Free cash flow after dividends
- Clean CCS net income/NOPAT

**Principles**
- Operational efficiency
- Capital efficiency
- Financing / cash efficiency
- Future oriented accretive portfolio management
- Comprehensive financial risk and compliance management

Shareholder return and strong rating

Sustainability
What sustainability means for us

At OMV, sustainability means creating long-term value for our customers and shareholders by being innovative and an employer of choice.

We conduct our business in a responsible way, respecting the environment and adding value to the societies in which we operate.
Responsible and sensible use of oil and gas

Oil is a valuable resource

- **Oil as an energy source:** when renewable energies are not available or affordable, or when a guarantee is needed that supplies are available in sufficient quantity (e.g. jet fuels)

- **Oil as a raw material:** premium materials and components for important products used in everyday life (petrochemicals)

- **Oil as a product produced synthetically:** as part of sustainable circular economy (plastics recycling)
Gas is an enabler for the energy transition to a lower-carbon energy system

- **Electricity production**: By switching from coal to gas immediate CO₂ savings of 50%.

- **Transport sector**: Gas produces 20–95% less CO₂ emissions and almost no particulate matter emissions. The technology and infrastructure are available.

- **Heating and cooling**: Gas is a clean and affordable low-carbon solution.

- **Storage system and pipeline infrastructure**: Connection to the power infrastructure via Power2Gas

- **Climate-neutral gas**: Hydrogen, pyrolysis and technologies for carbon capture and usage
Growth strategy is implemented in a safe, responsible and carbon efficient manner

# OMV’s Sustainability Focus Areas

<table>
<thead>
<tr>
<th>Focus Areas</th>
<th>Commitments</th>
</tr>
</thead>
</table>
| **Health, Safety, Security and Environment** | ▶ Zero work related fatalities  
▶ Stabilize Lost-Time Injury Rate at below 0.30 (per 1 million working hours)  
▶ Keep leading position for Process Safety Event Rate                                                                                                                                 |
| **Carbon Efficiency**            | ▶ Lower OMV’s carbon intensity of operations by 19% by 2025 (vs. 2010)  
▶ Reduce carbon intensity of OMV’s product portfolio by 4% by 2025 (vs. 2010)  
▶ Zero routine flaring and venting of associated gas by 2030                                                                                                                                 |
| **Innovation**                   | ▶ OMV aims to develop ReOil® into an industrial scale process (unit size of ~200,000 t per year)  
▶ OMV aims to raise the share of sustainable feedstock co-processed in the refineries to ~200,000 t per year  
▶ Increase the recovery factor in the CEE region in selected fields by 5-15 percentage points until 2025 through innovative Enhanced Oil Recovery methods                                                                                                                                 |
| **Employees**                    | ▶ Increase share of women at management level to 25% by 2025  
▶ Keep high share of executives with international experience at 75%                                                                                                                                 |
| **Business Principles and Social Responsibility** | ▶ Promote awareness of ethical values and principles: conduct in-person or online business ethics training courses for all employees  
▶ Assess Community Grievance Mechanism of all sites against UN Effectiveness Criteria by 2025  
▶ Conduct human rights training courses for all employees exposed to human rights risks by 2025  
▶ Increase the number of supplier audits covering sustainability elements to > 20 per year by 2025                                                                                                                                 |
ESG performance

- OMV joined the **Dow Jones Sustainability Index**, being the only Austrian company included.

- OMV received the highest “AAA” score from **MSCI Global Sustainability Index** for the sixth year in a row. OMV was reconfirmed as a constituent of two MSCI indexes: **ACWI ESG Leaders Index** and **ACWI SRI Index**.

- CDP ranks OMV as "Leadership A-" in the climate change category. This makes OMV one of the top eleven companies in the global oil and gas sector. In Austria OMV is one of the four highest ranked companies regardless of sector.

- OMV reached **Prime Status** after receiving B- score by **oekom** based on the 2018 analysis, positioning the company among 5% of the best ESG (Environment, Social and Governance) performing Oil & Gas companies.

- OMV was reconfirmed as a member of the **FTSE4Good Index Series**, which are used by a wide variety of market participants to create and assess responsible investment funds.

- OMV maintained its inclusion in the **STOXX® Global ESG Leaders**.

- OMV has been listed in the "**United Nations Global Compact 100**" since 2013.

- OMV is a constituent of **ECPI index** and scored EE-, stating as showing “a clear long-term strategic attitude, sound operational management practices and positive actions to tackle social and environmental needs”.
